## Seamless Graphics

Do you want to stand out from the crowd?

If the answer is YES then upgrade your shell scheme package to have complete seamless graphics from corner to corner to let people know you are here!

Our seamless graphic option allows you to brand your space with maximum visibility to engage customers and get the most out of your brand and promote key messages about your business to your customers.

## Infill Graphics

Simple but effective!

Create your space into a well branded and presented area for your customers to visit. Your graphic panels will be inserted in between the metal work of your stand and are great for colour and large logos.

Be mindful that each graphic will be split by the metal work of your stand as shown in the visual here, but with a clever design and usage of all the walls in your area this can really transform your space into a well branded booth.
